SUMMARY

Information Technology graduate specializing in Business Analytics with hands-on experience developing responsive web applications using React, Laravel, PHP, JavaScript, Tailwind CSS, HTML, CSS, and MySQL. Experienced in frontend and backend development, REST API integration, database-driven applications, debugging, version control, and web deployment. Completed multiple academic and personal software projects involving authentication, CRUD operations, dashboards, analytics, inventory management, and responsive user interfaces.

EDUCATION

Batangas State University – The National Engineering University

Bachelor of Science in Information Technology, Major in Business Analytics

2021 – 2025

Asian Institute of Computer Studies Batangas

Information and Communications Technology — TVL Track

2019 – 2021

EXPERIENCE

Freelance Web Developer

July 2025 – Present

Remote

- Develop responsive websites and web applications using React, Laravel, PHP, Tailwind CSS, HTML, CSS, and JavaScript.
- Integrate REST APIs and dynamic backend data into frontend applications.
- Build reusable user interface components and responsive layouts for desktop and mobile devices.
- Develop database-driven features including forms, authentication, CRUD operations, dashboards, and reporting interfaces.
- Troubleshoot application issues and perform debugging, maintenance, and optimization.
- Manage source code and version control using Git and GitHub.
- Deploy and maintain web applications using Vercel and other hosting platforms.
- Test applications for browser compatibility, functionality, and mobile responsiveness.

Administrative Staff / Encoder

February 2026 – August 2026

RS Santos Law Firm

- Verified and reconciled account records to identify and correct data inconsistencies.
- Performed data entry, validation, cleaning, and organization while maintaining accuracy.
- Prepared daily, weekly, and monthly collection performance reports.
- Maintained organized digital records for efficient retrieval and reporting.
- Handled confidential client and account information according to company procedures.

QA Tester Intern

February 2025 – May 2025

ICT Central, Batangas State University

- Performed functional, regression, and usability testing on web applications.
- Created and executed test cases based on software requirements.
- Developed automated browser testing scripts using Playwright and Selenium.
- Conducted API testing using Postman.
- Documented software defects and collaborated with developers to verify fixes.

PROJECTS

Hungry Paws Sales and Inventory Management Information System | PHP | MySQL | JavaScript | HTML | CSS

- Developed a web-based sales and inventory management system for a multi-branch pet store.
- Built point-of-sale, inventory management, stock monitoring, and reporting functionality.
- Implemented database-driven workflows for managing products, inventory, and transactions.
- Developed responsive administrative interfaces for business operations.

SCES Online Learning Platform | Capstone Project — PHP | MySQL | JavaScript | HTML | CSS

- Developed a web-based learning platform where students can access lessons, complete assessments, and view academic records.
- Built dashboards for educators and administrators to monitor student performance.
- Implemented educational analytics to visualize historical academic trends.
- Designed and managed a relational database supporting users, lessons, assessments, grades, and analytics.
- Developed a responsive interface to improve accessibility across different devices.

EverStill — Devotional Web Application | Laravel | PHP | MySQL | Blade | Tailwind CSS

- Developed a Laravel-based application for creating and managing devotional content.
- Implemented authentication and role-based access control for administrators and users.
- Built CRUD functionality for creating, editing, and moderating content.
- Developed an administrative dashboard for user and content management.

UTrack — Health Information Website | React | JavaScript | Tailwind CSS | Vercel

- Developed a responsive health information website using React and Tailwind CSS.
- Created reusable React components and responsive layouts.
- Designed an accessible interface for presenting health-related information.
- Deployed and maintained the application using Vercel.

TECHNICAL SKILLS

Frontend: React, JavaScript, HTML5, CSS3, Tailwind CSS, Vite

Backend: Laravel, PHP

Databases: MySQL, PostgreSQL, Microsoft Access

Programming: Python, Java, Dart, C++

Web Development: REST API Integration, CRUD Development, Responsive Web Design, Authentication, Debugging

Tools: Git, GitHub, Vercel, VS Code

Data & Analytics: Microsoft Excel, Power BI, Jupyter Notebook

Testing: Postman, Playwright, Selenium, Manual Testing

CERTIFICATIONS

CCNAv7: Introduction to Networks — Cisco Networking Academy, 2023

AWS Academy Cloud Architecting — AWS Academy

AWS Academy Cloud Foundations — AWS Academy

CORE COMPETENCIES

Web Development • Frontend Development • Backend Development • Database Management • REST APIs • Debugging • Responsive Design • Problem Solving • Git Version Control • Software Testing

LANGUAGES

Filipino: Fluent English: Working Proficiency
